Reliability

CET Central European Translations was founded in 1994 as a network of Central-, Eastern- as well as Western European translation offices. Now, CET Translations has offices in Romania, Hungary, and Germany. Having more than 1,000 satisfied clients, we have become one of the market leaders in the region. At present, more than 30 employees supported by more than 6,000 in-house and freelance translators help you bridge the communication gaps between people worldwide.

“In December 2002, CET Central European Translations was entrusted with the translation of a training program ... from English into 15 Central- and Eastern European languages.CET Translations managed this project professionally and carried out all the tasks according to the negotiated timeframes and within the budget.” - Amara Bains, Head Asia Pacific Regional Reporting Unit International Federation of the Red Cross & Red Crescent Societies

Quality

CET Central European Translations SRL has become the first Certified SAP Translation Partner in Romania. This certification underlines CET's competence in complex software localization projects. To further improve our quality processes, we have become ISO 9001 certified. Our translators and interpreters translate into their native language, they have university degrees, a thorough education in languages and appropriate qualification in specialized fields. Moreover, our translations are double-checked by proofreaders in order for the highest quality standards to be ensured. The consistency of a translation is ensured by the use of Computer Aided Translation (CAT) Tools: our in-house translators and our freelancers are trained and have acquired experience in using all major CAT Tools, including TRADOS and other translation memory tools.

“We have had a good cooperation with Central European Translations for several years and we have nothing to complain about. On the contrary, we are very satisfied with the services this company offers. Their personnel show professionalism and a lot of dedication, in spite of usually very short deadlines. But speed has never influenced the quality of the translation.” -

Voith AG

Our Services

Our goal is to support our clients in all the aspects regarding Central, Eastern as well as Western European languages: translation of all kinds of documents, interpreting, interpreting of telephone conferences. Software and website localization as well as Desktop Publishing are among our top services.

“We've been looking for a trustworthy partner for a long time, considering the technical difficulty of the documents we generally want to have translated. Central European Translations proved to be the right partner: the translations performed have been very good. We hope to continue our successful collaboration in the future.” -
